PENNSYLVANIA AMERICAN WATER RELEASES WATER QUALITY REPORTS FOR MONROE, PIKE, AND NORTHAMPTON SERVICE AREAS

MECHANICSBURG, Pa. (May 8, 2019) – Pennsylvania American Water announced today that results published in the company’s 2018 Water Quality Report indicated water quality surpassed regulatory standards in its Pocono, Lehman-Pike, and Northampton service areas. The company has posted the reports online under the Water Quality tab.

“We are pleased to report that the water supplied to our customers is of higher quality than required by state and federal drinking water standards,” said E. Christopher Abruzzo, director of water quality and environmental compliance for Pennsylvania American Water. “Our team of water quality and plant operations professionals works hard every day to ensure the highest quality product for our customers. These results are a testament to their dedication.”

The annual report is a performance measure of the quality of water supplied by Pennsylvania American Water against the compliance standards established by the U.S. Environmental Protection Agency and Pennsylvania Department of Environmental Protection. The report describes drinking water sources, testing conducted on the water, substances detected, and the levels of those substances. Commonly asked questions and the answers concerning drinking water are also included.

Pennsylvania American Water’s Water Quality Reports, which are updated and posted annually, provide information to local customers. The Monroe and Pike area water system includes: All Seasons; Blue Mountain Lake Estates; Fernwood; Marcel Lakes; Mid Monroe; Mount Pocono; Birch Acres; Milford Landing; Mountain Top Estates; Pine Ridge; Pocono Mountain Lake Forest Estates; Saw Creek; Tobyhanna; and Wild Acres. The Northampton county service areas include: Berry Hollow; the boroughs of Bangor and Roseto; townships of Washington; Plainfield; and Upper Mount Bethel.

Pennsylvania American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor owned water utility in the state, providing high-quality and reliable water and/or wastewater services to approximately 2.4 million people. With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 7,100 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to an estimated 14 million people in 46 states and Ontario, Canada. American Water provides safe, clean, affordable and reliable water services to our customers to make sure we keep their lives flowing.
