PENNSYLVANIA AMERICAN WATER ANNOUNCES \$1 MILLION SEWER LINE UPGRADE PROJECT IN SCRANTON

SCRANTON, Pa. (May 9, 2019) – Pennsylvania American Water today announced the start of construction to replace sewer main along Green Ridge Street and Gardner Avenue in Scranton. The company will install approximately 3,500 feet of 21-inch pipe at a cost of approximately \$1 million.

Starting the week of May 13, Pennsylvania American Water contractors will be working along Green Ridge Street between Dickson Avenue and Gardner Avenue. Crews will work weekdays between 7 a.m. and 5 p.m. Traffic restrictions will be in place during construction and drivers are urged to find an alternate route. The company expects to complete the project by mid-July, with final restoration and paving scheduled for late fall.

Wastewater service to the area will be maintained during construction. Once the new main is installed, customer-owned service laterals will need to be connected to the new wastewater main. When this work occurs, there might be a short interruption of service. Residents will be notified in advance. For more information, contact Pennsylvania American Water's customer service center at 1-800-565-7292.

Pennsylvania American Water, a subsidiary of American Water (NYSE: AWK), is the largest investor owned water utility in the state, providing high-quality and reliable water and/or wastewater services to approximately 2.4 million people. With a history dating back to 1886, American Water is the largest and most geographically diverse U.S. publicly traded water and wastewater utility company. The company employs more than 7,100 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to an estimated 14 million people in 46 states and Ontario, Canada. American Water provides safe, clean, affordable and reliable water services to our customers to make sure we keep their lives flowing.
